

Spring Cleaning & Organizing Checklist

The secret to getting organized is staying on task. Use this checklist to help you focus your effort on one organizing project at a time.

1. Plan

Using this Master List of the spaces in and around your home, prioritize organizing projects by importance to you and your family, and set a deadline for when each project must be complete.

2. Schedule

Make appointments with yourself and schedule your organizing sessions in your calendar. Block out these sessions as *Do Not Disturb!*

3. Involve your Family

Delegate! The more hands involved, the faster these projects will get done!

4. Make it Fun!

Make it fun by opening the windows, turning on some music, and playing a game. When you've finished a project, celebrate and treat the family to something special!

Around the House

Priority: _____ Due: _____
